

## The Catamarca Church Construction Project in Argentina

The Catamarca Church construction fund will **help house church plants build worship centers**. We are using a technique of **pioneer evangelism** that depends on families opening their homes for the first stages of church planting. This works well for the first year and up to 50 people, but beyond that, it becomes a burden for the family. There are two home groups now with a combined attendance of 75 people that we would like to help move into a worship center. The vision is to build simple multi purpose centers with minimum dimensions 10 meters by 10 meters and if a double lot is available, the size could be up to 20 meters by 20 meters, depending on the need. **This will facilitate growing home groups by:**

- Eliminating the need to rent larger buildings as they grow.
- Local church offering funds can be used exclusively for **evangelism, discipleship and pastoral leadership**. Often times with a small group we are forced into spending all our funds on having a place to meet and so it is difficult to minister and have funds to call a Pastor.
- The **churches can grow larger** and be freer to have ministries throughout the day without restrictions on time due to family needs.
- Many times, a large sum of money is needed to **buy land** and get the permits and construction plans approved. This will help the church get over this hurdle without going into debt beyond their ability to pay.

Home Group

Home Worship

Once the church is built, **the recipient church will contribute 10% of their offerings back into the church construction fund** so that we will be able to **continue building** churches throughout the province.

## OUR VISION:

Youth Group

Catamarca is the most under evangelized province in Argentina and there is an **urgent need to expand** as fast as possible. We have a vision of starting **four more churches** in the city of Catamarca and fifty throughout the province. At the present time we have two house churches in the city with an urgent need for a worship centers.

This ministry in a city of over 200,000 people and a province of over 400,000 is so big; it requires the participation of everyone. Together, we have a great opportunity to make an impact for God's glory.

Our job, as missionaries, is to **win and train ministers** for these new churches. We are praying for many more church planters.

Your ministry, if you choose, is to come alongside new churches as we together open the door to the un-reached areas.

Please consider making a donation today to the Catamarca Church Construction Project #605110 today. Go on line at [www.scene3.org](http://www.scene3.org) and choose Argentina - Catamarca Church Construction Project #605110 from the drop down listing.

Pray for Joel he is with a co-missionary Laura

God bless you,

**Scott and Ruth Millar**

Church planters in Catamarca Argentina.
